I work at the International relations Office of the University of Sassari (Sardinia) and I have had your contacts by Ms. Martina Mistríková, of the Italian Cultural Institute in Bratislava, who kindly suggested me to contact you in order to inform you about the international opportunity we offer and which you might help us to promote. I am very glad to inform you that the University of Sassari offers several traineeship opportunities offered through the “Erasmus Traineeship in Sardinia” (ETS) programme.

The ETS was launched in the A.Y. 2012/13 and results from a cooperation among the University of Sassari, the Municipality, the Province and the Chamber of Commerce of Sassari. The programme is addressed to students who are interested in carrying out a traineeship in companies, private offices, institutions and research centres of North Sardinia. The network of companies participating in the programme has widened during the last years and we are now able to offer over 150 traineeship opportunities in several professional fields. Selected students will be enrolled at the University of Sassari and may benefit from all services reserved to incoming students, such as free courses of Italian language and culture. They may attend courses and, if compatible with the main training activity, take exams.

More details about the programme and the complete list of traineeships are available online at the following link: [www.uniss.it/erasmustraineeshipinsardinia](http://www.uniss.it/erasmustraineeshipinsardinia).

I think the ETS can be a good opportunity for students from Slovakia who wish to carry out a traineeship abroad and for this reason I would be extremely grateful if you could help us spread the information through your channels.

For any additional information do not hesitate to contact me.

Thank you in advance and looking forward to starting a fruitful cooperation.

Kindest regards

Carla Urgeghe
